Job title: Junior Developer
Department: Technology
Salary: Competitive
Location: London

Job Description:

This is an exciting opportunity for a Junior Developer to join our dynamic, fast-growing and fun team in our London office. You will work with our Inferno software platform, developing strategic enhancements to the platform as well as working directly on client projects.

You will be responsible for designing and building technical solutions, meeting user requirements, and contributing to the development and evolution of the platform.

You will have strong problem-solving skills, be sharp and well-motivated, and enjoy working in a flexible, agile environment. As well as excellent programming skills you will be familiar with all phases of the software development lifecycle and best programming practice.

Skills and Aptitude:

- Relevant degree from a good university
- Good OO programming experience, C++ preferred
- Unix knowledge
- SQL knowledge
- C# GUI knowledge a plus
- Financial services and capital markets experience a plus
- An enthusiasm for technology
- Ability to work pro-actively with minimal supervision
- A willingness to get involved in detail and get the job done

About Torstone Technology:

Torstone is a leading global provider of cross-asset post-trade securities and derivatives processing technology. We simplify the complexities of the post-trade landscape. Combining many decades of investment banking expertise with in-depth global financial market knowledge, we develop an innovative, secure and scalable solution. Modern, cloud-based fully integrated technology means our customers spend less time on manual processing and maintaining regulatory compliance, and more time with clients. Our aim is to help our customers drive revenue and greater operational efficiency, with reduced risk and better business performance.

We have a strong team of around 100 employees and are growing quickly. Our global headquarters is based in London, UK with offices in New York, Toronto, Hong Kong, Singapore, and Tokyo.
