Job title: Senior Developer
Department: Technology
Salary: Competitive
Location: London

Job Description:

We are looking for an experienced software developer to develop and support our Inferno software platform. The candidate will work on strategic enhancements to the platform as well as on direct client projects.

The candidate will be responsible for designing and building technical solutions, meeting user requirements, and contributing to the development and evolution of the platform.

The candidate will have strong problem-solving skills, be sharp and well-motivated, and enjoy working in a flexible, agile environment. As well as excellent programming skills the candidate will be familiar with all phases of the software development lifecycle and best programming practice.

Skills and Aptitude:

- 5+ years of commercial software development experience
- Excellent C++ experience on Unix
- SQL knowledge (Oracle preferred)
- C# GUI experience a plus
- Financial experience a plus.
- Relevant degree from a good university
- An enthusiasm for technology.
- Ability to work pro-actively with minimal supervision.
- A willingness to get involved in detail and to get the job done.
- Excellent written and spoken English

About Torstone Technology:

Torstone is a leading global provider of cross-asset post-trade securities and derivatives processing technology. We simplify the complexities of the post-trade landscape. Combining many decades of investment banking expertise with in-depth global financial market knowledge, we develop an innovative, secure and scalable solution. Modern, cloud-based fully integrated technology means our customers spend less time on manual processing and maintaining regulatory compliance, and more time with clients. Our aim is to help our customers drive revenue and greater operational efficiency, with reduced risk and better business performance.

We have a strong team of around 100 employees and are growing quickly. Our global headquarters is based in London, UK with offices in New York, Toronto, Hong Kong, Singapore, and Tokyo.
